

Education and vocational training through innovation - VET

This project aims at **establishing a full-fledged multi-functional VET school of excellence in the agricultural and agro-food processing sectors in the “Rakip Kryeziu” school in Fier** and punctual intervention in the Agriculture School of Lushnje related to agricultural mechanization.

EXPECTED RESULTS

1. Established the Multifunctional Center for Agricultural and Agro-food Processing at the “Rakip Kryeziu” Agricultural Institute in Fier and strengthened the Institute of Agricultural Mechanics in Lushnje;
2. Developed and piloted innovative training curricula to meet dynamics and demands of the labor market;
3. Established stable and efficient relationships between the two vocational schools and the labor market in the agricultural and agri-food sector;
4. Ensured consistency and synergy with IPA II programming in Albania regarding employment and general training.

2 ZERO HUNGER
