Productive and Inclusive Employment in Kosovo

Development of personal and professional skills,
Entrepreneurship of young people and women

8 DECENT WORK AND
ECONOMIC GROWTH

EXPECTED RESULTS

1. Students from 4 VES and 3 universities develop technical, professional, and personal skills suited to the contemporary requirements of the local and international labor market.
2. Access to entrepreneurship development support structures is increased for young people, women, and those at risk of economic exclusion.
3. Startups, early-stage businesses, and social enterprises that access incubators and are more likely to grow and create jobs are strengthened through financial support schemes.
