

EcoR.E.S.

Sustainable, inclusive, and equitable economic growth in Bosnia and Herzegovina

The project aims at improving the living and working conditions of young people, women, people with disabilities, and vulnerable adults by **promoting inclusive and equitable local development through quality education, the creation of decent jobs, entrepreneurship, creativity, and innovation.**

EcoR.E.S. also promotes the **growth of micro, small, and medium-sized enterprises (MSMEs)**, through access to financial services, and by removing barriers to training and employment for women and people with disabilities.

EXPECTED RESULTS

1. Increased the number of young people and adults accessing quality, inclusive, and equitable training, including vocational, university, and on-the-job training, to enhance the skills needed for employment, decent work, and entrepreneurial development in sectors aligned with environmental protection.
1. Increased green, fair, and inclusive employment by strengthening business start-ups in sectors aligned with environmental protection, emerging from informal employment, and matching them with the labor market.
1. Removed barriers to training and employment for disadvantaged individuals, particularly women and those with disabilities, by promoting development, individual productivity, and social participation.

May 6, 2026
Italian Ambassador to Sarajevo Sarah Eti Castellani participates in the project's kick-off meeting and meets project stakeholders.
